

## For Sale Farm Fresh Eggs

---

We are selling eggs from our farm for \$2 a dozen. These eggs come from our happy hens which do not receive any hormones or antibiotics. They are free range hens and produce brown eggs which are large to extra large in size. I can bring the eggs to classes on Fridays where they will be kept in a cooler until you take them home.

Please call me with any questions you may have or to order any eggs.

The best way to contact me is by phone as I do not have a computer at home. Also, we will be selling beef from our cows sometime after January. I will have more info on this later.

Blessings,

Micki Caifano
